

## Who we are

### DCHA manages homes and services across Cornwall and Devon

We own 7,000 rented homes (with PHA managing 2,000 of our general family homes in Cornwall) and 1,000 low-cost home ownership properties. We also manage 1,000 leasehold properties through our subsidiary Devon & Cornwall Leasehold Solutions. And, [click here](#) for details of our successful development vehicle, Westco Properties.

Our sheltered and supported housing activities go across Cornwall and Devon, offering housing and support services to those including older people, young people at risk, people with mental health problems and women escaping domestic violence.

We deliver employment and training opportunities for young people through our network of six foyers in: Padstow, Bodmin, Redruth, Plymouth, Torbay and Launceston.

We also provide "care & repair" home improvement agency services across the two counties, helping older and disabled owner-occupiers adapt and maintain their homes, often with grant assistance from local councils.

We lead the Partnership South West development consortium, funded by the Housing Corporation to deliver nearly 2,000 new homes over the last three years. We are also founder members of Advantage South West, the off-site manufacturing partnership that won the Housing Corporation's first Gold Award for innovation in procurement.

Our head office is in Exeter, and we have major offices in Plymouth, Barnstaple, Liskeard and Truro.
