

Care & repair in Cornwall

The care & repair services in Cornwall are delivered out of two offices, based at Truro and Penzance.

The Truro office provides the home improvement agency service for Carrick, and the Penzance office does the same for west Cornwall (Kerrier and Penwith). The teams give support, advice and assistance to older people and people with disabilities to help them stay in their own homes.

The mid & west Cornwall handyperson service covers the above areas and in addition the Borough of Restormel. The service is again available to older people and people with disabilities, as well as people who are carers.

To contact us you can [email us your enquiry](#) or see below for further details.
